

Sample CV – Java EE Engineer (Vietnam)

Name: [Replace with Candidate Name]

Email: neranjan.b@eyepax.com

Phone: +84 [Add Phone Number]

Location: Vietnam

Address: [Street/City], Vietnam

Professional Summary

Detail-oriented Java EE Engineer with 5+ years of experience designing, developing, and maintaining enterprise-level applications using Java EE, Spring, Hibernate, RESTful APIs, and microservices. Strong knowledge in scalable backend systems, relational databases, cloud deployment, and DevOps workflows. Adept at Agile development, debugging, optimizing performance, and delivering stable, high-quality code for complex enterprise solutions.

Core Skills

- Languages: Java, SQL, JavaScript
- Frameworks: Java EE, Spring Boot, Spring MVC, Hibernate, JPA
- Web Technologies: JSP, Servlets, HTML5, CSS3, XML, JSON
- Databases: MySQL, PostgreSQL, Oracle, MongoDB
- Tools: Maven, Gradle, Git, Docker, Jenkins
- Architectures: Microservices, REST APIs, MVC
- Servers: Apache Tomcat, WildFly, JBoss
- Cloud: AWS / Azure
- Methodologies: Agile/Scrum, CI/CD

Professional Experience

Java EE Engineer

[Company Name] – Vietnam

[Month Year] – Present

- Developed enterprise-grade Java EE applications using Spring, Hibernate, RESTful APIs, and microservices architecture.
- Optimized SQL queries and improved database performance for systems handling high transaction volumes.
- Built and consumed REST APIs for integration with internal and external services.
- Implemented authentication/authorization using Spring Security and JWT.
- Led debugging and performance initiatives, reducing response times by over 30%.
- Participated in Agile ceremonies, sprint planning, code reviews, and documentation.

Junior Java Developer

[Company Name] – Vietnam

[Month Year] – [Month Year]

- Supported development of internal tools using JSP/Servlets and Java EE.
- Assisted in database modeling and prepared stored procedures in MySQL/Oracle.
- Built reusable backend modules and contributed to Git version-controlled repositories.
- Collaborated with QA teams for integration testing and bug fixing.

Education

Bachelor of Science in Computer Science / Information Technology

[University Name], Vietnam

[Year Completed]

Certifications

- Oracle Certified Professional, Java SE
- Spring Framework Certification
- AWS Cloud Practitioner

Projects

Enterprise HR Management System

- Designed backend modules using Spring Boot and Hibernate.
- Implemented employee workflows, RBAC, and reporting APIs.

E-Commerce Microservices Platform

- Developed order and payment microservices using Java and REST.
- Integrated with external payment gateways and logging systems.

Languages

- Vietnamese – Native
- English – Professional working proficiency
