PROFILE

I am a QA Engineer with more than six years of experience in software quality assurance, with expertise in both manual and automation testing. I am passionate about improving software quality, enhancing testing efficiency, and supporting teams in delivering reliable products. I aim to contribute my best to my organization while continually developing my knowledge, skills, and professional growth.

Key Strengths- Strong team player, Fast learner, Solid foundation in QA concepts and practical skills

WORK EXPERIENCE

Eyepax

2023 - Present

QA engineer

Learned skills

- Automate web apps and mobile using Robot framework
- Api automation using Robot framework
- Manual testing and release process
- Creating, Executing and analysing test plans.
- Monitoring releases and issues on live environments
- Problem solving
- Api testing using postman
- Automate web applications using playwright pytest

Tools –

JIRA, Excel, Appium, Robot Framework, Python, Pytest Framework, Playwright, Postman, Jenkins, VScode, Pycharm, Appium Inspector, Sourcetree

Labfriend

2022 - 2023

QA engineer

Learned skills

- Automate web apps using Cypress
- Writing testcases, test suites using Azure DevOps
- Executing and analysing test plans.
- Using SQL server management studio for executing SQL queries.
- Following practises of manual testing
- Monitoring releases and issues on live environments

Tools –

Cypress, Typescript, Azure DevOps for test case management, SQL server management studio, Jmeter**Zincat Technologies (Outsource to Dialog)**

2021-2022

QA engineer

Learned skills

- Automate billing processes using UI path
- JIRA

Pragmatic Test Labs (Outsource to Fortude)

2020 – 2021

Software Engineer – Test Automation

Learned and improved skills

- Automate web apps using Selenium and TestNG.
- Use Fiddler to capture API calls.
- Writing test cases and organizing test suites.
- Executing test plans and analyzing their results.
- Problem Solving
- MS office
- Working with version controllers (Source tree)
- Learning and working with Page object Model

Tools –

Selenium, TestNG, IntelliJ, Fiddler, MS office, Sourcetree,Swagger**Virtusa**

2019 – 2020

Automation Associate QA

Learned and improved skills

- Automate web apps using Selenium and TestNG
- Follow up the Agile test automation process
- Automate web apps using UFT
- Working with version controllers (Git and Tortoise SVN)
- Java
- Implement and run SQL queries
- Using Katalon web recorder extension for automation purposes
- Jenkins

Tools - Selenium, TestNG, Java, Git, Tortise SVN, SQL, Katalon recorder

EDUCATION

ISTQB-Certified Tester Foundation Level (CTFL)

NSBM (2017 - 2020)

1st class honors

Management of Information Systems Degree program - UGC Approved

G.C.E.Advance Level (Maths stream) 2016 – Pass

(Index no – 3275868)

G.C.E.Ordinary Level (English Medium) 2013 – Pass

(Index no - 33934428)

MSC in Software Engineering - 2024

OTHER KEY SKILLS

- JAVA
- SQL
- J2EE
- UML diagrams and BPMN diagrams
- Familiar architectures – MVC architecture
- Fundamental coding knowledge on JS and TypeScript
