## Personal / Academic Projects & Exposure

### Project Manager - Hospital Organ & Blood Donation System

#### Project Management module - ICBT Campus - Aug-Oct 2025

- Led a five-member team as the Project Manager to design a project plan for a Hospital donation system. Delivered a report covering feasibility studies, risk analysis, WBS, Gantt chart, and system modules including donor matching, inventory tracking, and secure data workflows.

### Project Manager - Blood Donation System (Ongoing)

#### Computing Project module - ICBT Campus - November 2025

- Leading the team as the Project Manager to develop a blood donation system for donor registration and inventory tracking.
- Managing planning, documentation (BRD, use cases), and stakeholder coordination.

### Business Analysis Personal Project - Student Budget Assistant

- Designed an Excel-based budgeting tool to help students track income, expenses, and savings goals. Collected survey data, analyzed spending patterns, and built a reusable dashboard template.
- Skills: Data analysis, documentation, stakeholder empathy, dashboard design

### Group Research Project - Business Information Systems

#### Role : Project Leader - ICBT Campus - Aug-Oct 2025

- Led a team of four in analyzing and documenting the business information systems of DK Architect, a Sri Lankan construction firm. The project involved system analysis, functional area mapping, and proposing modern IT solutions to improve operational efficiency.

### Web Development - Greenlife Wellness Center

- Created a complete website for GreenLife Wellness Centre as part of academic coursework, utilizing HTML, CSS, JavaScript, and PHP, incorporating both front-end and back-end development principles.

### UI/UX Design - Personal Projects

- Created responsive web and mobile interfaces focused on usability and accessibility. Projects include dashboards, donation platforms, and student tools.
